Hi Bill, Do you have time to look at this higher ed enrollment by zip data that came in today?

Bert,

Attached is the data we discussed for the Wasatch Front region. I know we originally talked about sending it for the whole state and you could share with the other councils; however, in talking with Carrie Mayne, my boss, I realized it would be more appropriate for us to distribute to them upon request so we track where our data has landed. We have the data and can share it with any of the councils we discussed. Please have them contact me if they are interested.

Let us know if you have any questions.

Have a great weekend!
